

A shark-infested sequel full of underwater adventure

Book Two in the *Tristan Hunt and the Sea Guardians* series!

"This is the best book ever ... I like reading about people helping the ocean."

—Eliot Bennan, 5 years old

After thwarting the dastardly plans of JP Rickerton, Tristan Hunt is having trouble keeping his newfound talents a secret. And if undercover spies and a mysterious illness threatening to expose the secrets of camp weren't enough, reports of dying fish and disappearing sponge in the Caribbean call Tristan and his friends back into action. Will the Sea Guardians discover the source of the problem before time runs out? Can he escape the threat of an oncoming storm? Or will a betrayal from one of their own ensure it's already too late?

- ▶ **Author is a marine life activist and environmentalist who encourages young people to preserve and appreciate ocean life for future generations to enjoy**
